Writing	140-141
Games	142
Other	143-144

Easi-Grip garden tools are designed on ergonomic principles to minimise the effort and discomfort experienced with conventional tools. All metal parts are manufactured from high quality stainless steel; the fork and trowel are polished to a mirror finish to minimise soil adhesion. The angled handle ensures that the hand and wrist are kept in a neutral, stress-free position; it is moulded from a "soft-feel" non-slip waterproof material. An interchangeable plug-in arm support may be attached to any tool for those with weak hands or wrists. These tools are supremely comfortable for every age and ability.

1 Fist Grip Add-On Handles

Add-On Handles may be fitted to a wide range of garden tools (and indeed in the home and workshop) giving them a firmer, more positive grip whilst keeping the hand and wrist in a comfortable position. Fitting two Add-On Handles to long shafted tools, such as rakes, hoes, brooms etc., enables work to be carried out in a more upright position, thus preventing back strain and giving a wider field of work without twisting the body. Fit Add-On Handles to your favourite garden tools to convert them into ergonomically correct tools.

The handles have two stainless steel clamps which are tightened by finger operated plastic wing nuts. The Arm Support Cuff will plug into the rear of the handle for those with weak hands or wrists. Will fit handles up to 40mm(1.5in) diameter.

Add on Handles (pair)
PR70054

2 Interchangeable Arm Support Cuff

This useful aid is designed to assist gardeners who suffer from weak hands or wrists and will plug into any Easi-Grip Tool. The support allows the strength of the forearm to be used. Specially designed to take the strain out of gardening and day to day household duties. This handy arm support slips easily on to the arm for the support needed.

PR70053

3 Garden Tools

Specially designed to take the strain out of gardening. These tools have a pistol grip handle, which keeps the wrist in its natural position. This allows a firm grip on the tool and elevates strain on the wrist. Manufactured from Stainless Steel with a comfortable brightly coloured plastic moulded handle.

Each tool weighs only 8 oz.

1 Long Reach Gardening Tools

Designed for gardeners working from a seated position, or those with bending difficulties. Long Reach garden tools provide additional length to assist reaching ground level, or the further reaches of a raised flowerbed. Due to the balance of these tools we strongly recommend that our Arm Support Cuff is always used to improve weight distribution and control.

- Stainless steel tool, prevents soil adhesion for easier use and cleaning
- Ergonomic handle allows more work for less effort
- Option for Arm Support Cuff (recommended) uses strength of forearm in addition to hand and wrist
- Non-slip grip, prevents tool slipping in the hand even in wet conditions
- Brightly coloured handle – easy to find in garden or shed
- Overall length 80cm (30") gives greater accessibility without need for bending or stretching

2 Garden Kneeler

Getting up and down to those garden chores can be quite a strain on both the back and knees, especially in wet weather. Made of robust steel tubing designed around a raised, soft, comfortable kneeling platform of polypropylene foam, it also has arms that are just the right height to assist getting back up without back strain. And for those jobs where you need a little height - just turn the Kneeler over for a comfy seat or handy step. Folds flat in seconds for easy storage. Ideal for gardens, DIY jobs, etc.

Magnifiers

Our wide range of magnifiers caters for every type of detailed work and provides an invaluable helping hand. Our models are fitted with a high quality lens. Some are different magnifications for extremely detailed interests. The range includes attractive hand held magnifiers and neck magnifiers, as well as specialised models for lace making, clipping into spectacles and intricate hobbies.

1 Two Way Lighted Magnifier

Hands free magnifying glass with light and neck cord. Handle closes for standard use. Enlarges and illuminates detail.

- Large 4.25 inch (105mm) diameter acrylic lens
- Built-in light with on/off switch
- Keeps both hands free when used with supplied adjustable neck cord
- Ideal for reading, sewing or other hobbies
- Feet close together for use as a classic magnifying glass
- Neck cord storage in handle
- 1.5 x magnification with small 4 x magnification area
- Uses 2 x AAA batteries (not included)

PR70061

2 Magnifier on a Stand

This large 220 x 170mm (8½ x 6¾") 2x magnifier comes with a weighted stand base and a clamping device to attach to a table or desk surface, for hands free use. The extendable arm allows the magnifier to be positioned at different heights and angles.

PR70057

3 Rectangular Magnifying Reader

Relieve irritating eyestrain.

This magnifier has a focal point of up to 250mm (10"). Plastic handle is angled to fit comfortably in the hand. Magnifying lens measures 51x100mm (2 x 4"). Provides 2x magnification with a bifocal inset that provides 5x magnification.

PR70002

1

1 Full Page Magnifier

Enlarge an entire page of text at one time.

This convenient magnifier helps reduce eyestrain and makes reading maps, newspapers and other documents easier. Flexible lens has a magnifying area that measures 230 x 160mm (9 x 6¼"). Provides 2x magnification.

PR70001

2

2 Book Butler

Spring-loaded arms hold pages flat.

The high impact, styrene Book Butler holds pages in place for reading or display. Paperbacks, hard cover books, magazines and newspapers can all be held at a comfortable angle. Features two spring-loaded, page-holding posts that make it easy to turn from page to page. Ideal for one-handed use. Measures 180 x 230mm (7 x 9").

PR70006

3

3 Deluxe prism glasses

Read or watch TV while lying flat.

These glasses turn an image at the right angle so no head movement is necessary to read a book or watch television. Ideal for people who must wear a halo or who have limited neck movement. Fits over corrective lenses if necessary. Ear piece can be adjusted with a heat gun. Includes a vinyl case.

PR70000

1 Writing-Bird

Ideal writing device for persons with limited hand control. The Writing-Bird is a unique writing device for persons with limited hand co-ordination, dexterity or a weak grasp. Ideal for persons with arthritis or neurological disorders. Perfect for individuals without thumb to fingertip pinch. Only slight downward pressure is needed to write. Made of durable, frosted acrylic. May be used with either the right or left hand. Pen is included.

PR70003

2 Comfort Grip Pens

These pens have a built in comfort pad which is ergonomically designed to cushion and reduce the stress of writing. Thicker in the barrel to aid grip and filled with a Gel ink which flows easily and has a leak proof tip. Available in four bright barrel colours and also in an assorted pack of four. Gel ink refills in Black and Blue.
