## The Body Pillow

The Body Pillow is a unique collection of cushions which have been developed to provide the best possible support for the human body. The Body Pillows contain a specially-treated chipped memory foam. This ensures that the Body Pillow takes on the contours of your body so that you are supported with optimum comfort. The delaying effect of the relax foam offers excellent characteristics for lowering pressure and has an anti-decubitus effect. The proven anatomical design of the cushions offers the best possible support for the (neck) vertebrae.

The Body Pillows are, in addition to being used in the medical sector, excellently suited for use in and around the house and during travel.

The various models in the Body Pillow collection ensure that there is a cushion for every position. The uses of the cushions are extremely varied. They can be used for reading in bed or on the settee for the best possible sitting comfort, in the car for complete relaxation or to prevent or alleviate neck, shoulder and joint problems.

### 1 Boomerang

The Boomerang is extremely suited to the alleviation of neck or back pain or as a comfortable head cushion. Sitting on the settee or in the car you will notice that the Boomerang provides support for your head, neck and shoulders and gives an alleviating feeling and more relaxation.

To alleviate the lower back and to support the limbs, you place the Boomerang against the back of a chair and you will experience that you sit in a more relaxed fashion and that you can do it for longer. The cushion is also extremely suitable for taking on journeys.

**PR20621** Length 1150mm Width 290mm.

### 2 Bed Mate

Easy forming to provide fantastic support for the back so that relaxing in bed is given an extra dimension: relaxed television watching or reading a book with the feeling that you are sitting in an armchair in the lounge.

If you lay the Bed Mate at the head end over the whole breadth of the bed you have a large relax foam cushion as the perfect support for the head, neck and shoulders and yet it is mildly soft and comfortable.

The Bed Mate also offers many possibilities as a play or sitting cushion. Sitting on the floor the cushion is quickly formed into a pouffe or a soft back support against the edge of the bed. In short: a very functional relaxing cushion.

**PR20623** Length 1800mm Width 470mm.

### 3 Basic Head Pillow

The Head Pillow combines a number of characteristics which ensure a very comfortable and healthy night's rest.

The correct support and softness decreases the pressure on sensitive skin tissue and ensures a proper blood flow to the capillaries. The cushion moulds itself completely to the form of the body decreasing neck and back pain.

**PR20620** Length 600mm width 500mm.

### 1 Body Total

The Body Total pillow offers comfort and support for your whole body. The unique design of Body Total ensures that your body is supported at various points simultaneously. The cushion moulds itself to your body. The Body Total helps your body to get the rest it needs. The Body Total provides support and comfort to the head, neck, back and legs so that the use of individual, extra cushions is no longer necessary.

When lying down to read or watch television, the Body Total is a first class support for the elbows and the upper body.

**PR20624** Length 2850mm Width 320mm.

### 2 Body Comfort

The Body Comfort (also known as the pregnancy cushion) is a smaller edition of the Body Total. The Body Comfort provides the same support as the Body Total but, because of its measurements, it is not only suitable for use in bed but also for reading a book or watching TV on the settee. The Body Comfort also offers support to people who have difficulty getting about and who therefore spend a lot of their time sitting. It is a versatile cushion for the whole family.

**PR20622** Length 1950mm Width 320mm.

### 3 Smart Pillow

This small rectangular cushion is often used in combination with other cushions to obtain even more comfortable sitting or lying positions. It is particularly suitable for the underside of the back or for behind the head.

**PR20627** Length 400mm Width 300mm.

### 4 Neck Pillow

The Neck Pillow is a smaller model of the Boomerang. This cushion lies on the shoulders and is therefore nice and comfortable. This Neck Pillow offers good support to the neck and is therefore the ideal travel cushion.

**PR20626** Length 340mm Width 350mm.

### 5 Handy Pillow

This nicely designed cushion is multifunctional because of its hand grips. It can provide support to the head, back and limbs and is practical in use.

**PR20625** Length 430mm Width 180mm.

Correct positioning is essential to ensure comfort and relief. Specialists have developed the Harley Range of pillows; the unique shape has been tested in clinical practice over many years, making it the top selling professional orthopaedic pillow in the UK. State-of-the art equipment combined with the very latest materials technology has now allowed us to mould memory foam into the precise contours required to keep the spine in alignment.

## Both Designer Pillow and Harley Pillow are available in the following options:

Designer/Pillow 450 x 320 x 130mm (17½ x 12½ x 5") - Ideal for the average frame

Designer/Plus 510 x 360 130mm (20 x 14 x 5") - Ergonomically identical - just a little larger on the bed

Designer Lo-Line 450 x 320 x 100mm (17½ x 12½ x 4") - Especially for those with a smaller frame

Designer Travel Pillow 300 x 320 x 100mm (12½ x 12½ x 4") - Complete with handy travel bag

## Designer Range Constructed from Visco Elastic Memory Foam

- Originally developed by NASA for use in seating to reduce shock forces when re-entering the Earth's gravitational field
- Used in racing cars and jet aircraft as it absorbs up to 97% of impact shock
- Moulds to the individual's shape
- Ensures comfort, stability and posture control
- Dissipates body heat
- High levels of pressure relief

### 1 Harley Pillow

The original Harley Pillow, which has been a top seller within the profession for the past 10 years, is moulded to the same beneficial shape as the Designer. Cold cast polyurethane is used to give the patient added support. Available in the same 4 options as the Designer Pillow. All Harley Pillows are supplied with fitted inner cover and slipover case - additional cases available.

**PR20004 Harley Pillow 450 x 320 x 130mm (17½ x 12½ x 5")**

**PR20005 Harley Plus 510 x 320 x 130mm (20 x 12½ x 5")**

**PR20006 Harley Low Line 450 x 320 x 100mm (17½ x 12½ x 4")**

### 2 Designer Propillow

Awarded Millennium Products status for creativity and innovation, the Design Council and the Government recognise the importance of maintaining the upper spine in the correct position.

Moulding has enabled us to gear the shoulder curve so it allows you to move easily from side to back, ensuring your shoulder and upper arm never interfere with the cervical spine.

Pressure relieving properties of memory foam have brought relief to many who have previously been denied a good nights sleep. All Designer Pillows supplied with fitted inner cover and zipped fleece case removable for easy laundering - additional cases available.

**PR20000 Designer Pillow 450 x 320 x 130mm (17½ x 12½ x 5")**

**PR20001 Designer Plus 510 x 320 x 130mm (20 x 12½ x 5")**

**PR20002 Designer Low Line 450 x 320 x 100 (17½ x 12½ x 4")**

### 3 Travel Pillows

Travel in style ...great choice ...great value. A trip away and a 'pain in the neck' - sound familiar?

Our moulded Travel Pillows are identical to the Designer Pillow and Harley Pillow - just a little smaller designed to be easily transportable and guaranteed to keep those aches and pains at bay. Doubles as a lumbar roll when placed inside its handy travel case.

**PR20003 Designer Travel Pillow & Travel Bag 300 x 320 x 100mm (12 x 12½ x 4")**

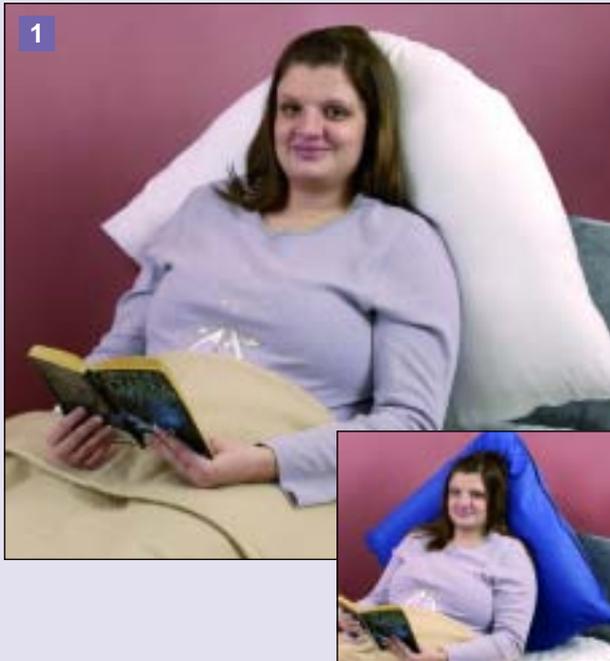

**PR20007 Harley Travel Pillow & Travel Bag 300 x 320 x 100mm (12 x 12½ x 4")**

### 4 'Value' Travel Pillow

The Harley 'Value' Travel Pillow is filled with 1st quality fibre. It supports the head allowing the cervical vertebrae to remain aligned in a gentle rather than hyperextended curve, which results in the familiar 'crick in the neck'. Doubles as a lumbar roll for easy travelling.

**PR20008 Harley 'Value' Travel Pillow**

**1 V Shaped Pillow**

Our V Shaped Pillows are filled with chips specially developed to be both smooth and resilient. Smooth for comfort whilst still allowing the inherent dynamics of the elastic foam to make each chip spring back to its original shape. This enduring resilience ensures longer lasting and effective weight absorption and pressure redistribution away from the bony prominences. The V Shaped Pillow is fully washable and can be tumble dried at 71°C without losing the pressure reducing qualities.

**PR20143 V Shaped Pillow with Cotton Cover**

**PR20144 V Shaped Pillow with Wipe Down Cover**

**2 Foot Board**

This soft, Fleecy foot board is cosy for your toes and specially designed to prevent slippage whilst in bed. Featuring a secure belt fastening and removable inner for washing. Size: length 410mm, Height 200mm (16-8")

**PR20146**

**3 Bed Fleece**

100% Pure New Wool

These Real wool Bed Fleecees have the unique ability to absorb perspiration, thus preventing the skin from becoming 'clammy'. This allows the skin to breath more effectively; very important in pressure area care. Real wool is exothermic. Unlike polyester fleecees, wool can absorb up to 33% of its own weight in moisture without feeling damp (compared with polyester's 5%) Wool will not feel cold even when damp. Real wool has a remarkable natural resilience: with the real Lamb's wool high-density 1" deep pile this distributes pressure more evenly giving immediate comfort and relief. Real wool has a gentle touch that prevents friction burns from abrasive sheets. The Bed Fleecees are pre-treated to enable the real Lambs wool to be hot washable up to 161°F (71°C) and autoclaved. The Real Wool Bed Fleecees can be washed at these temperatures up to 50 times and still continue to give softness and comfort to patients.

**PR20139 Double Bed 1520 x 685mm (60 x 27")**

**PR20140 Single Bed 760 x 685mm (30 x 27")**

**4 Rest Ease Pillow**

Designed to encourage a healthier position for the spine, the anatomically shaped Rest-Ease Pillow allows maximum weight distribution and air to circulate freely helping keep the skin cool and comfortable, it comes complete with fitted inner cover. Fits most pillowcases.

**PR20145**

**5 Neck-Eze Pillow**

This is a very handy item for almost anyone. It is an inflatable pillow that fits around your neck and cradles your head while relaxing in the bath, riding in a car, lying on the beach or sitting in your easy chair. Great for long plane trips where you must try to sleep in a seated position. Does a good job of supporting a sore neck as well as helping to prevent getting one. Velvet like outside surface.

**PR20089**

## Moulded Back/Car Supports

The human body isn't made to sit still but to move, and our design philosophy is based on this ergonomically sound principal. This range recognises that seats are often inadequate and takes this into account. Visco elastic memory foam allows the individual to continuously move and sit in the correct manner.

### 1 Designer Back Support

Moulding allows us to manufacture to an anatomical shape, which offers unparalleled support. This ensures the lumbar spine is kept in alignment whilst gentle lateral support helps to reduce strain. Visco elastic memory foam moves with the individual, reduces pressure points and supports the back in a medically responsible way.

**PR20009 Designer Back Support**  
400 x 380mm (15½ x 15") (moulded)

### 1 Harley Back Support

Made to the same exacting specifications as the Designer but moulded from cold cast polyurethane for maximum support.

**PR20012 Harley Back Support**  
400 x 380mm (15½ x 15") (moulded)

### 2 Designer Car/Seat Support

Only by moulding could we make such a superbly slim support which doesn't place the lumbar spine into extension as is so often the case. It fits snugly into the car or any seat requiring added support in the low back. Visco elastic memory foam ensures this is supremely comfortable in use.

**PR20010 Designer Car/Seat Support**  
(300 x 210mm (12 x 8") (moulded)

### 2 Harley Car/Seat Support

Made to the same exacting specifications as the Designer but moulded from cold cast polyurethane for maximum support.

**PR20013 Harley Car Support**  
(300 x 210mm (12 x 8") (moulded)

### 3 Designer Back Aid

A base of CMHR high resilience foam topped with visco elastic memory foam provides maximum comfort and adjusts to the natural curve of the spine thanks to its pressure relieving properties. A perfect fit on almost any seat.

**PR20011 Designer Back-Aid**  
380 x 410mm (15 x 16")

### 4 Harley Winged Support

A great little product, ideally suited to the office environment as it provides stable balanced sitting and gives integrated lateral support not provided by conventional rolls.

**PR20014 Harley Winged Support**  
320mm x 150mm (12½ x 6")

1

2

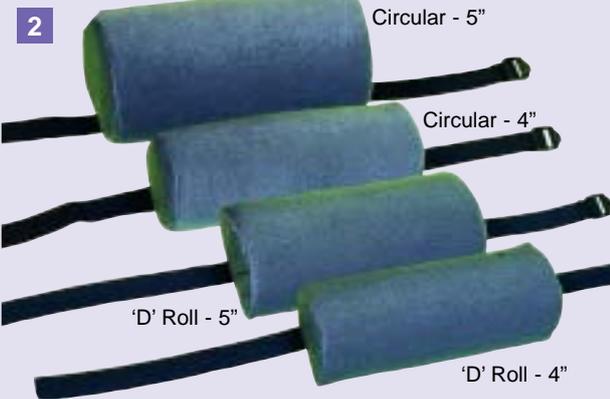

3

4

### 1 Designer Wedge

A base of CMHR high resilience foam to maintain support is fused with 3cm of visco elastic memory foam to give maximum comfort and pressure relief. An 8° angle ensures the natural 'S' shape of the spine is maintained.

This product absorbs vibrations and possesses optimal adaptability and is particularly suitable for people with intervertebral disc lesions, arthritis or degenerative joint disease.

Available with or without coccyx relief cut-out.

**PR20019 Designer Wedge**  
360 x 360 x 70mm (14" x 14 x 2½) 8°

**PR20020 Designer Coccyx Wedge**  
360 x 360 x 70mm (14" x 14 x 2½) 8°

### 2 Harley Lumbar Rolls

4" & 5" Circular and 4" & 5" 'D' - All rolls 28cm (11") long. Ideal for use in the home, office or car. 1st quality inner and washable luxury velour covering. They are easily portable and held in place with an elasticated buckled strap.

**PR20015 Circular - 5"**

**PR20016 Circular - 4"**

**PR20017 'D' Roll - 5"**

**PR20018 'D' Roll - 4"**

### 3 Harley Slimline Wedge/Car Seat Leveller\*

Ideal in the car where headroom is at a premium. It is also ideal where the need is felt for just a little added support to ease muscle tension in the lumbar region.

Available with or without coccyx relief cut-out.

Velour fabric covers - colours may vary.

\*All Wedges are fitted with strap for use in a car.

We particularly recommend this for use in a car as this will help prevent 'submarining' in the event of an accident

**PR20023 Harley Slimline Wedge**  
360 x 360 x 50mm (14 x 14 x 2") 5°

**PR20024 Harley Slimline Coccyx Wedge**  
360 x 360 x 50mm (14 x 14 x 2") 5°

### 4 Harley 11° Wedge

Poor seating is unfortunately a fact of life. When an expensive new chair is out of the question the Propillow 11° Wedge allows sitting for long periods with the pelvis tilted correctly and the spine in its natural position significantly decreasing pain in the lower back and legs.

Available with or without coccyx relief cut-out.

**PR20021 Harley 11° Wedge**  
360 x 360 x 100mm (14 x 14 x 4")

**PR20022 Harley 11° Coccyx Wedge**  
360 x 360 x 100mm (14 x 14 x 4")

### 5 Backfriend

The Backfriend is a combined back rest and seat base which can be used to improve posture and comfort in a variety of locations, home, office, car, train or even aeroplane. Designed with orthopaedic and ergonomic considerations, the back friend is shaped to give firm, comfortable lumbar support. It is easy to adjust to suit individual needs but maintains the correct curve for good back care. Covered in a durable black fabric and available in standard or deluxe (padded version for extra comfort). The Backfriend folds for transport and a cut out handgrip makes it easy to carry. Weighs just 1.8 kgs (4 lbs)

Folded size: 508cm x 420mm (20in x 16in)

Colour - black

**PR20072 Standard**

**PR20073 Deluxe**

## Designer Pressure Relieving Cushion

Visco elastic memory foam offers ultimate relief up to and including high risk. Eminently suitable for decubitus prophylactics as it takes pressure from the endangered parts of the body. This product is invaluable when the user has to sit for long hours, as the pressure relieving properties are immense. Ideal for wheelchair users.

### Designer Memory Foam

- Originally developed by NASA for use in seating to reduce shock forces when re-entering the Earth's gravitational field
- Used in racing cars and jet air crafts as it absorbs up to 97% of impact shock
- Moulds to the individual shape
- Ensures comfort, stability and posture control
- Dissipates body heat
- High levels of pressure relief
- Lightweight
- Probably the most comfortable cushion available ANYWHERE
- 2 different densities to suit differing body weights

## 5 Crescent Infill

This hammock shape balances a seat which is not level, for example a folding wheelchair.

Choice of covers.

Supplied in luxury velour cover unless otherwise requested.

**PR20052 Crescent Infill Cushion (43x43x6")**

## Designer & Pressure-TEX Cushions

Both Designer and Pressure-TEX Cushions available in the following options:

### 1 Standard

### 2 Coccyx Coccyx Relief cut-out

### 3 Combi Ischael Tuberosities - Haemorrhoid-Genital Relief cut-out

## 4 Pressure-TEX Cushion

The proven design of the Pressure-TEX Cushion is geometrically cut into sections which operate independently. This allows maximum weight distribution and air to circulate freely helping to keep the skin cool and free from pressure areas.

### Choice of covers.

Luxury velour cover is fitted as standard. PU waterproof cover available as a no cost option. Dartex cover available as an optional extra cost.

PR20046	<b>Pressure-TEX Cushion</b> 430 x 430 x 100mm (17 x 17 x 4")
PR20047	<b>Pressure-TEX Coccyx Cushion</b> 430 x 430 x 100mm (17 x 17 x 4")
PR20048	<b>Pressure-TEX Combi Cushion</b> 430 x 430 x 100mm (17 x 17 x 4")
PR20049	<b>Pressure-TEX Coccyx Cushion</b> 430 x 430 x 60mm (17 x 17 x 2½")
PR20050	<b>Pressure-TEX Cushion</b> 430 x 430 x 60mm (17 x 17 x 2½")
PR20051	<b>Pressure-TEX Combi Cushion</b> 430 x 430 x 60mm (17 x 17 x 2½")
PR20040	<b>Designer Cushion</b> 430 x 430 x 100mm (17 x 17 x 4")
PR20041	<b>Designer Coccyx Cushion</b> 430 x 430 x 100mm (17 x 17 x 4")
PR20042	<b>Designer Combi Cushion</b> 430 x 430 x 100mm (17 x 17 x 4")
PR20043	<b>Designer Cushion</b> 430 x 430 x 60mm (17 x 17 x 2½")
PR20044	<b>Designer Coccyx Cushion</b> 430 x 430 x 60mm (17 x 17 x 2½")
PR20045	<b>Designer Combi Cushion</b> 430 x 430 x 60mm (17 x 17 x 2½")

All above suitable up to 18 stone - over 15 stone please request 'ultravisco'

1

### 1 Gel Wheelchair Cushion

Cushion consists of Silicone Gel and Foam, and is ideal for relieving pressure areas. Cushion measures 410 x 460mm (16 x 18").

**PR35000WC-G**

2

### 2 Gel/Foam Wheelchair Cushion

Cushion consists of Silicone Gel and Foam, and is ideal for relieving pressure areas. Cushion measures 430 x 381mm (17 x 15").

**PR35157**

3

### 3 Wheelchair Set

Our Wheelchair Set cushions are filled with chips specially developed to be both smooth and resilient. Smooth for comfort whilst still allowing the inherent dynamics of the elastic foam to make each chip spring back to its original shape. This enduring resilience ensures longer lasting and effective weight absorption and pressure redistribution away from the bony prominences. The cushion is fully washable and can be tumble dried at 71°C without losing the pressure reducing qualities.

**PR20141 Royal Blue - Wipe down**

**PR20142 Pale Blue - Polycotton**

4

### 4 Wheelchair Fleece Covers

100% Pure New Wool

These Real wool Wheelchair Fleece Covers have the unique ability to absorb perspiration, thus preventing the skin from becoming 'clammy'. This allows the skin to breathe more effectively; very important in pressure area care. Real wool is exothermic. Unlike polyester fleeces, wool can absorb up to 33% of its own weight in moisture without feeling damp (compared with polyester's 5%) Wool will not feel cold even when damp. Real wool has a remarkable natural resilience: with the real Lamb's wool high-density 1" deep pile this distributes pressure more evenly giving immediate comfort and relief. Real wool has a gentle touch that prevents friction burns from abrasive materials. The Wheelchair Seat Covers are pre-treated to enable the real Lambs wool to be hot washable up to 161°F (71°C) and autoclaved. The Real Wool Bed Fleeces can be washed at these temperatures up to 50 times and still continue to give softness and comfort to patients.

**PR20137 Seat cover 460 x 410mm (18 x 16")**

**PR20138 Seat and back cover 910 x 410mm (36x 16")**

5

### 5 Foam Wheelchair Cushion

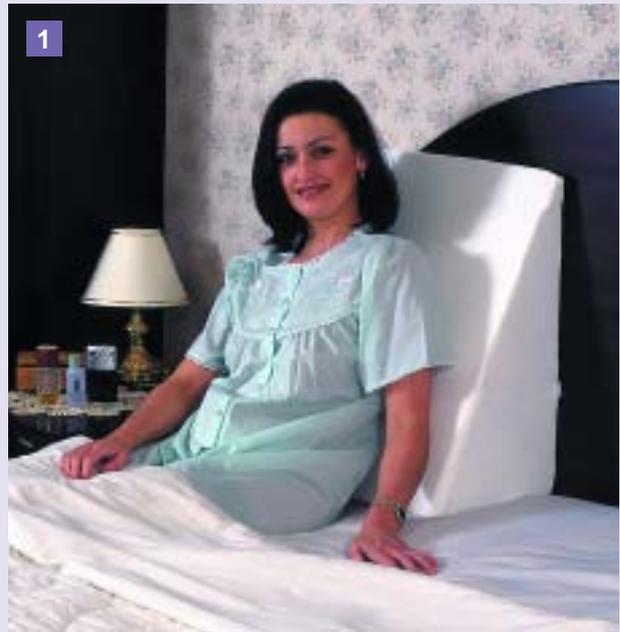

Simple foam cushion. It is waterproof, flame retardant, vapour permeable; wipe clean, high quality and outstanding value. A cost effective Low/Medium Risk solution to pressure problems. Size: 17" x 17" x 2.5"

**PR30159**

## 1 Bed Relaxer

Support and comfort whilst sitting or sleeping in bed. Can be used in two ways either to allow reading or for those who find it uncomfortable or undesirable to sleep lying flat, perhaps due to hiatus hernia or respiratory conditions. It can be placed under a normal pillow.

**PR20055 570 x 570 x 270mm (22½ x 22½ x 10½")**

## 2 Leg Raiser

Manufactured to an ergonomically beneficial angle designed to support the back of the knee and heel whilst allowing the calf to relax. This takes pressure from the lower back and stimulates circulation. Back pain is relieved and symptoms of oedema, varicose veins and fatigue are greatly eased.

**PR20053 Width 570mm (22.5")  
Length 660mm (26")**

## 3 Mattress Tilter

Placed under an existing mattress to give a 5" tilt. It will relieve symptoms of oedema, varicose veins, low back pain and general fatigue. Use at the head of the bed to alleviate hiatus hernia and respiratory difficulties.

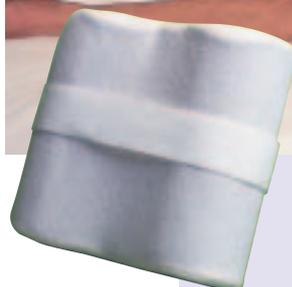

**PR20056 610mm x 640mm x 130mm  
(24 x 25 x 5")**

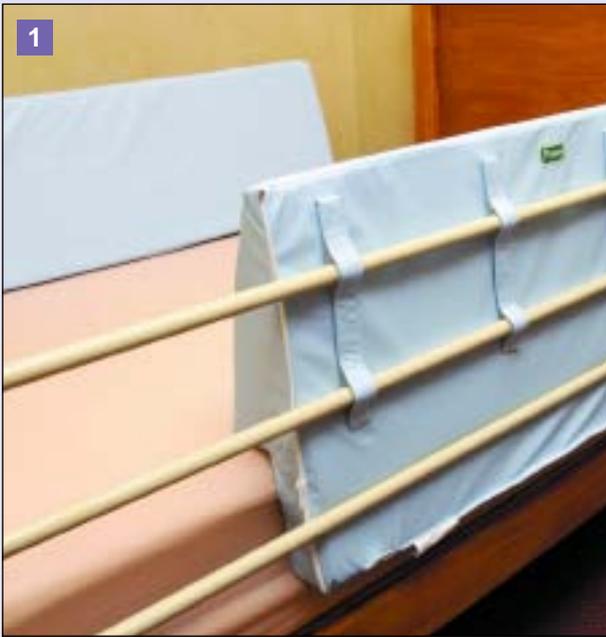

## 4 Knee Support

A revolution in the care and comfort of the back during sleep. The Harley Knee Support is a must for those with hip problems. Overstretched muscles, ligaments and tendons often mean aches and pains during the night and the morning. The Harley Knee Support takes pressure away from the low back and hips allowing the spine to assume its natural 'S' shape. Fitted with a touch close fastening.

**PR20054 260 x 260mm (10 x 10")**

### 1 Siderail Wedges

Cushion siderails help close gaps between the siderails and mattress. Use Posey Siderail Wedges to help protect clients from injury due to siderails. These cushions also help deter unassisted bed exits. Use individually to close the gap between half siderails or to cover the half siderail. Zip the pair of wedges together to provide 6 feet (1.8m) of full-length protection. Also may be used to cushion the headboard and footboard. Constructed of durable, plush foam covered with soft, water-repellent, bacteriostatic Staph-Chek vinyl. Attaches with hook and loop straps. Measures 890mm long, 430mm high and 510mm thick (35 x 17 x 20") at the top and bottom edges. Sold in pairs.

**PR20200 Pair**

### 2 Promedics Cot Side Bumpers

These Cot Side Bumpers are a cost effective way to ensure patient safety and are designed to fit a variety of cot sides and can be easily fastened in place. Supplied in pairs.

**PR20128 1320 long x 405mm high – Small  
(52" long x 16" high)**

**PR20129 1830 long x 405mm high – Large  
(72" long x 16") high**

## 1 The Hip Shield (See page 112 for more information)

Reducing the risk of hip fractures in the elderly, or for post operative care

The Hip Shield can help to prevent a fall becoming an injury and is designed to absorb and deflect impact away from the hipbone. The Hip Shield itself is discreet and comfortable to wear and inside the protector is a lightweight honeycomb structure that compresses on impact. The Hip Shield just slips into a pair of protector pants and is unobtrusive beneath skirts or trousers.

Pants are available in two styles, male and female, in six sizes based on waist measurement. Made of 95% cotton, each pair has internal pockets that you simply 'slip' the Hip protector into before putting on the garment. Suitable for day or nightwear the Hip Shield is available in single or 'triple pack'. The triple pack contains three pairs of pants plus one pair of Hip protectors. The perfect solution, one pair to wear, one in the wash and one spare! For sizing see chart below:

Size	Female Waist size	Single pair	Triple pack
Small	660-710mm (26-28")	PR20300	PR20300-3
Medium	710-760mm (28-30")	PR20301	PR20301-3

XXX-Large	1110-1160mm (44-46")	PR20321	PR20321-3

## 2 Nodular Ring Cushion

Post operative trauma, and hemorrhoids are just two of the conditions making sitting a painful experience. The Harley Ring Cushion is made from nodular foam to allow air to circulate freely and take pressure away from endangered areas. It comes complete with its own discreet cover and is easily portable. Diameter 41cm.

PR20601

## 3 Harley Designer Ring Cushion

Post operative trauma, and hemorrhoids are just two of the conditions making sitting a painful experience. The Harley Designer Ring Cushion is made from moulded visco elastic memory foam, offering increased comfort and pressure relief. It also comes complete with its own discreet cover and is easily portable. Diameter 43cm.

PR20602

## Ring Cushion Cover

Black towelling cushion cover suitable for the Nodular Ring Cushion (PR20601) and Harley Designer Ring Cushion (PR20602).

PR20603

## 4 Commode Ring

The Commode Ring cushion is filled with chips specially developed to be both smooth and resilient. Smooth for comfort whilst still allowing the inherent dynamics of the elastic foam to make each chip spring back to its original shape. This enduring resilience ensures longer lasting and effective weight absorption and pressure redistribution away from the bony prominences. The cushion can be wiped down with a soapy solution as it has a vinyl cover or dry cleaned without losing the pressure reducing qualities.

PR50590

## 5 Inflatable rubber ring

Inflatable rubber ring can be used to prevent pressure sores or assist with their healing. Rubber ring can be wiped clean.

PR20616 410mm (16")

PR20618 460mm (18")

1

**1 Designer Face Saver**

Visco elastic memory foam ensures this is a joy for the patient to relax on. Fitted with inner cover and zipped looped fleece outer for easy laundering. Doubles as travel pillow for those long journeys.

**PR20065**

2

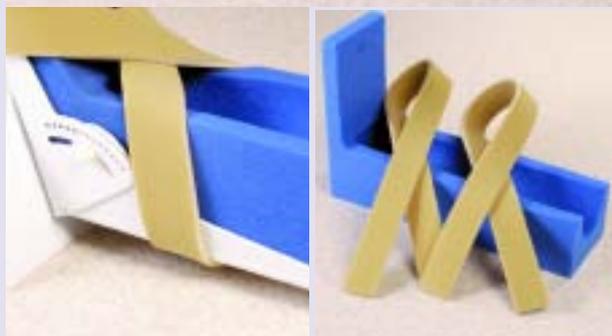

**2 Foot Drop Splints**

Soft foam provides comfort while helping to prevent foot drop.

The Regular Model includes a contoured foam insert and three straps. The triangular splint base adjusts for internal and external rotation and the cut-out heel reduces pressure. The base may be autoclaved.

The Adjustable Model moves incrementally from 45° to 90° dorsiflexion. It measures 390mm (15") long, 280mm (11") high, and 130mm (5") wide. Nut and bolt design does not require tools for adjustment. The foam inserts are hand washable. A Replacement Insert with Straps is available separately.

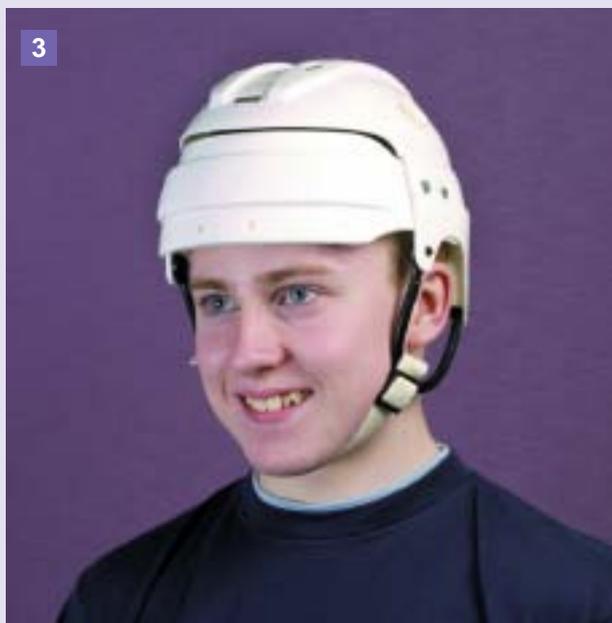

**PR20076 Adjustable Model**

**3 Adapta-Helmet**

Lightweight, adjustable helmet is ventilated for air circulation. Provides comfortable protection for persons with head injuries or seizures. Polyethylene shell covers thick, foam padding. Fits head circumferences that measure from 400 to 660mm (16 to 26") at eyebrow level. Ventilated helmet measures 150mm (6") from top to ear hole. Not intended for small children.

**PR20088**

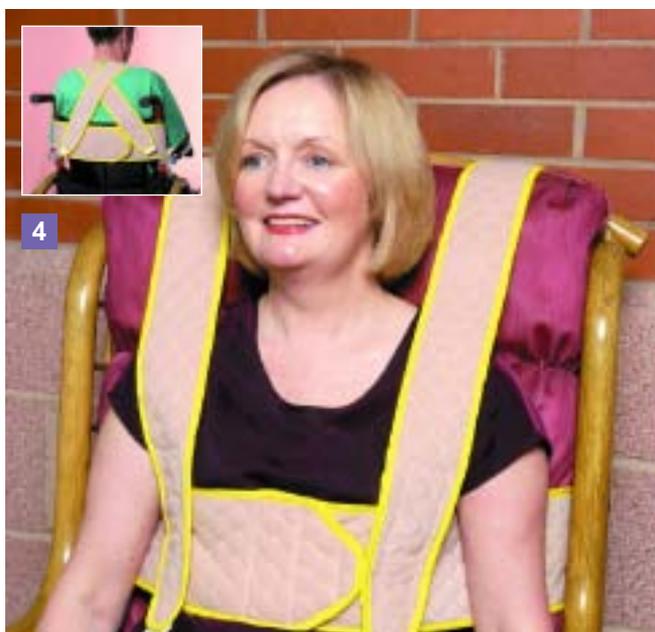

3

**4 Posey Torso Support**

This restraint alternative provides comfortable support for the upper torso.

This self-releasing support helps prevent tilting, leaning and forward sliding. Velcro fastener allows the wearer to put on and take off the support unassisted. Provides soft, broad support around the chest and over the shoulders. Machine washable. Sizes X-large and XX-large fit geri chairs or tall back wheel chairs.

	Size	Length
PR20220	Small	1140mm (45")
PR20221	Medium	1270mm (50")
PR20222	Large	1400mm (55")
PR20223	X-Large	1570mm (62")
PR20224	XX-Large	1780mm (70")

4

Visco elastic memory foam takes the temperature and weight of the patient and adapts to the shape of the body.

It has the capacity to neutralise pressure concentrations in warmer (risk) areas and diffuse points of high interface pressure: Points of heightened pressure are hotter than other points e.g. shoulders, hips and heels. The Designer Mattress eliminates point elasticity (rebound resilience <2%) in any sleep position.

- Temperature Reactive Memory Foam
- Recognises shape and pressure and adjusts accordingly
- Up to 30% of contact area is high risk in a standard mattress, less than 3% in the Designer Mattress.
- Suitable for patients up to 127kgs
- Five year warranty
- Up to High Risk

#### Covers

Supplied with Dartex 2-way stretch vapour permeable cover as standard. Other options are available - either polyester fleece or PU Waterproof covers.

#### Designer Pressure Relieving Mattress Range

Quotations for the manufacture of incubator, paediatric, operating theatre mattresses, trolley toppers etc. in addition to 'one offs' for individual caravans, boats etc. can be made on request.

- PR20025 Designer Pressure Relieving Mattress**  
910 x 1900 x 150mm (36 x 75 x 6")
- PR20026 Designer Pressure Relieving Mattress**  
137 x 190 x 150mm (54 x 75 x 6")
- PR20027 Designer Pressure Relieving Mattress**  
1520 x 1900 x 150mm x (60 x 75 x 6")

## 2 Designer Supreme Pressure Relieving Overlay

All sizes available

This superb product offers a full 6cm of temperature reactive memory foam resulting in exceptional levels of pressure distribution for maximum protection and relief. Suitable for patients up to high-risk category.

- PR20031 Designer Supreme Overlay**  
910 x 1900 x 60mm (36 x 75 x 2½")
- PR20032 Designer Supreme Overlay**  
1370 x 1900 x 60mm (54 x 75 x 2½")
- PR20033 Designer Supreme Overlay**  
1520 x 1860 x 60mm (60 x 73 x 2½")

## 3 Designer Pressure Relieving Overlay

All sizes available

This has a 30mm base of high resilience polyurethane foam fused with a 30mm topping of temperature reactive memory foam. This reduces dramatically the need to reposition during the night, alleviating aches and pains by taking pressure away from shoulders, elbows, hips and heels as it shapes itself to the body. Suitable for patients up to medium risk.

- PR20028 Designer Overlay**  
910 x 1900 x 60mm (36 x 75 x 2½")
- PR20029 Designer Overlay**  
1370 x 1900 x 60mm (54 x 75 x 2½")
- PR20030 Designer Overlay**  
1520 x 1860 x 60mm (960 x 73 x 2½")

#### Overlay Covers

Supplied with polyester fleece as standard.

## 1 Designer Pressure Relieving Mattress

All sizes available.

Tissue dies within 2 hours if it is denied oxygen and nutrients, perspiration can accelerate this process. Patients up to high risk can benefit immensely from the pressure relieving properties of the Designer Mattress.

## Designer Mattress Overlays

- Temperature Reactive Memory Foam
- Moulds to the Body
- Even Pressure Distribution
- Aches, Pains and Joint Stiffness Alleviated
- Three year Warranty

Proper support for the body is essential if sleep is to give complete relaxation. There must be no pressure points or distortions, otherwise tensions and strains in the bone structure and muscles will keep the whole nervous system subconsciously active during the night. This will result in constant repositioning and a poor start to the day ahead. A problem all too familiar to those who have a 'hard' bed.

Designed to be used in conjunction with the existing mattress our Designer Overlays take the weight and heat of the body to mould to the individuals requirements ensuring a relaxing and tension free sleep and a refreshing pain free start to the day.

### 1 Pressure-Text Mattress

All sizes available.

Pressure reducing qualities incorporated into a replacement mattress.

100% polyurethane foam geometrically shaped into a unique modular design allows each section to operate independently. This allows maximum weight distribution and air to circulate freely to help keep the skin cool and free from pressure areas.

It ensures a high level of comfort and relief, and is an extremely cost effective way to treat patients in the low to medium risk categories.

- Modular construction and high grade UPV foam ensure optimum comfort
- Suitable for both profiling and standard beds
- Reduces shear and friction
- Maximum weight distribution
- Air circulates freely keeping skin cool and free from pressure areas
- Keenly priced
- Four year warranty
- Low/Medium Risk

Supplied with fitted and zipped Waterproof PU Cover as standard. Dartex 2 way stretch cover available at a small extra cost.

**PR20037 Pressure-Text Mattress**  
910 x 1900 x 150mm (36 x 75 x 6")

**PR20038 Pressure-Text Mattress**  
1370 x 1900 x 150mm (54 x 75 x 6")

**PR20039 Pressure-Text Mattress**  
1520 x 1980 x 150mm (60 x 78 x 6")

### 2 Pressure-Text Overlays

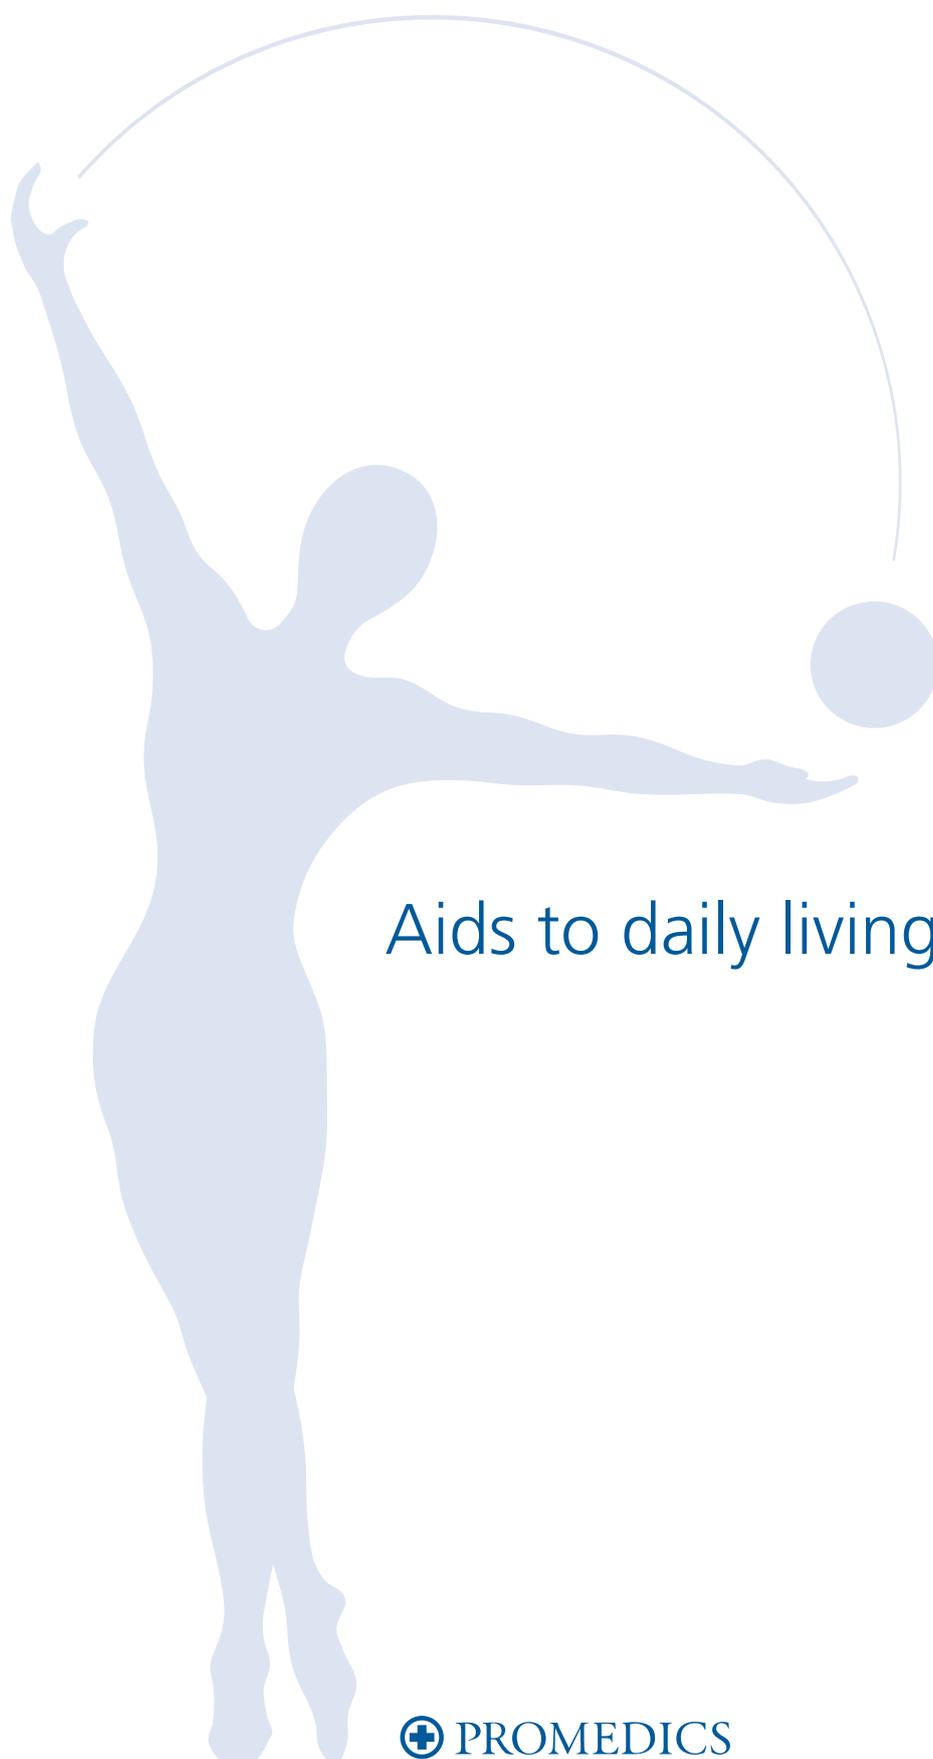

The sectional geometric design of the Pressure-Text Overlay allows maximum weight distribution with freely circulating air to keep the skin cool and free from pressure areas. An ideal 'topper' if the bed is hard and general fatigue and back pain are a problem. Suitable for patients in low risk category.

Supplied and fitted with polyester fleece cover as standard. Dartex 2 way cover available at a small extra cost (see below)

**PR20034 Pressure-Text Overlay**  
910 x 1900 x 60mm (36 x 75 x 2½")

**PR20035 Pressure-Text Overlay**  
1370 x 1900 x 60mm (54 x 75 x 2½")

**PR20036 Pressure-Text Overlay**  
1520 x 1980 x 60mm (60 x 78 x 2½")
